Gary Wyeth (Thailand)

Water Loss 2022

June 19-22, 2022

Praha ♦ Prague

Aim of the Conference

Water Loss 2022 is intended to present and discuss the latest developments, strategies, techniques and applications of international best practices in Non-Revenue Water Management.

Water Loss 2022 will be a very special event after more than a year of travel restrictions, virtual conferences, and webinars. Although the virtual Water Loss 2020 conference in Shenzhen, China was a major success with unprecedented participation, it has been a long time since the “water loss community” met in 2018 at the Water Loss Conference in Cape Town, South Africa. It is high time to seeing everyone again, and not only on Zoom or MS Teams!

Refreshing personal contacts, meeting colleagues from all five continents, seeing old friends and making new ones are certainly amongst the main reasons to attend Water Loss 2022 in the beautiful city of Prague.

The Conference is already the tenth event in this so successful series of IWA water loss reduction specialty conferences!

Topics

- NRW Assessment and Strategy Design
- Leak Detection technologies, strategies, equipment
- Network Zoning and DMA Design
- Asset management
- Pressure Management
- Customer Metering
- Relevant IT Solutions
- Smart Water Networks
- Performance Based NRW Management Contracts
- Organizational and Institutional Issues
- Economics and Financing
- Capacity building and HR issues

Call for Abstracts

Authors are invited to present papers dealing with any water loss related topics. The aim is to provide a comprehensive programme of the highest quality, reflecting a wide range of international experiences.

You are invited to submit an extended abstract (500–1,000 words, including figures, diagrams or illustrations) in pdf format. Please headline your text with the following information:

- Topic (choose one from the list)
- Title of presentation
- Author's name and affiliation, email address (if more authors, highlight corresponding author)
- Author's country (country where the author is based at present)
- Three key words (to help with easy identification)

Given the special Covid-19 situation, you may not have any new research or case study to present. But you may have many questions or issues to be discussed and therefore proposals (topics) for workshops or panel discussions can also be submitted.

Key Dates

Abstract submission starts

The Online Abstract Submission will be accessible from Conference website.

Contact us at: abstracts@waterloss2022.org

April 30, 2021
